PERSONAL PROJECTS

Project Title: *Online Blood Donation Management System* [VIEW LIVE]
This is a blood donation management system MERN application where users can register
to see list of available donors. Also, they can filter list according to their blood group.

Project Title: *GIF search app using Firebase.* [VIEW LIVE]
Built a next.js application for searching gifs. It also includes signup and login functionality using Firebase.

Project Title: *Task Manager Tool* [VIEW LIVE]
Built a task manager application as a fun learning project where we can create our own
tasks, edit them, and delete them. Used MongoDB database to save data permanently.
